ESCALATION ROSTER

Lina Chen is assistant to Maya Patel.

Lina Chen is assistant for Harborline Systems.

09:03	**Arjun Mehta**	P0-7421 is reproducible: a retry for BB-TEST-6732 enqueues a second confirmation.
09:07	**Neha Kapoor**	Cache miss began at 08:06 UTC. Old workers kept an expired route; trace is in https://confluence.example.test/x/P0-7421.
09:11	**Owen Blake**	Queue consumer is pinned to the previous build. Depth is dropping. On-call: +1 415 555 0184.
09:14	**Lina Chen**	I added a failing test for repeated dispatch with the same synthetic booking key.
09:19	**Dev Shah**	Feature flag is off in synthetic staging. No new duplicates; runbook: https://confluence.example.test/x/MAIL-28.
09:26	**Arjun Mehta**	Fix proposal: reject repeated events before mail-job creation. Review: https://github.example.test/harborline/dispatch/pull/1842.
09:34	**Neha Kapoor**	Patch is up. Idempotency test and queue replay pass locally. Owner ID: HS-EMP-1057.
09:42	**Owen Blake**	Bluebird Air confirms three messages arrived once. Isha Rao is validating from the client bridge.
09:49	**Lina Chen**	Canary is clean for 15 minutes. No second dispatch for a booking key; CI: https://github.example.test/harborline/dispatch/actions/runs/8124.
10:04	**Dev Shah**	Rollback path is documented. Monitoring remains on after P0 resolution; page +1 415 555 0192 for escalation.
